# We Want to Answer Your Questions.

The Quarry Innovation Center is a proposal to close the Guadalupe Quarry near Brisbane, Calif. and develop a two-level, 892,000 sq. ft. advanced manufacturing facility on part of the quarry property, *while permanently protecting more than half of the property as open space*. The project will create good jobs, support environmental stewardship and generate significant one-time and on-going revenue for the City of Brisbane, San Bruno Mountain HCP and other local agencies.

*As we move forward, we're committed to thoughtful community engagement.*

**Here are three ways you can provide feedback and ask questions about our project:**

1

## ATTEND VIRTUAL OFFICE HOURS

Join our team on Zoom for Virtual Office Hours, held the 2nd and 4th Wednesday of the month from 4 to 5 PM

SCAN TO SIGN-UP

2

## REVIEW OUR ANSWERS TO YOUR FAQs

We're keeping track of the questions we receive and doing our best to provide thoughtful, complete answers. You can view the most current version from our website.
